### POLICYHOLDERS' COMMITTEE

FORMED TO TAKE A HAND AT MUTUALIZING EQUITABLE

By Legislation to Amend the Charter If: Necessary. According to the Programme John D. Crimmins Heads the Committee-Amending Bill Discussed.

The formation of an Equitable Life policyholders' committee is announced to-day by John D. Crimmins, Henry Morgenthau, E. H. Outerbridge, Edwin Warfield, E. W. Bioomingdale, Charles Bulkley Hubbetl, John B. Stanebfield and the Rev. Dr. R. S. MacArthur, who announce that at the request of many policyholders they have constituted themselves a committee have ing for its object to secure for its policy holders the right to vote for trustees. They also announce that the committee means to take all needful steps to protect the interests of the policyholders. It is proposed to enlarge the committee, which requests policyholders to send in their names to E. J. Esselstyn, at the office

of the committee, 45 Brond sizeet.

"I don't think it would be wise at this time to name all the lawyers," he said. "They have been consulted because of their familiarity with life insurance affairs. It is fair to assume that Mr. Albert B. Boardman of Beardman, Platt & Soley is pretty familiar with the proposed plan. It was necessary to consult the lawyers to find out what would have to be done to protect the interests of the policyholders. It would appear that it was the decision that legislation was necessary, as apparently nothing could be done with the charter of the Equitable. Any idea that this committee has been formed to protect the policyholders in litigation that that this committee has been formed to protect the policyholders in litigation that may grow out of the present trouble in the Equitable is unfounded. The committee was formed solely to bring about the mutualization of the company."

Dr. MacArthur said: "Every one knows there is a difference of coinion between

there is a difference of opinion between Mr. Alexander and Mr. Hyde, and my sympathy is with Mr. Alexander in his desire to have the policyholders have a say in the election of officers of the company. An effort has been made to get some of the policyholders together to get an expression of opinion and this appeal is expression of opinion and this appeal is the result. It is signed by men whose names have weight and who think they ought to have a say in the selection of officers. The signers of the petition have held no meeting as yet. A paper was simply passed around among them, and those signed it who cared to. We have got together so that we could better protect our interests. so that we could better protect our interests.

## DOCTOR FEARS FOR HIS LIFE.

SAYS HE'LL SHOOT COACHMAN IF POLICE DON'T ACT.

Discharged Man for Abusing Horses-Then Came Threatening Letter-His House Twice Invaded and Wife's and Own Health Suffering-Suspect Near By

Dr. James A. "If the police don't arrest this fellow I'll shoot him within thirty-six hours," said the doctor. 'I simply can't stand the

strain of it any longer. About a year ago, he said, a man he had hired as coachman abused and neglected two valuable horses, and he discharged him in pretty strong language. A month later mission to investigate cerebro-spinal men- in him any time he stepped into the street.

"I believe the fellow is living right here in High Bridge," said Dr. Ferguson, "and I think I know where he can be found. I am positive he is the man that has been threatening to kill me, destroying the health of my wife and generally making life miserable for my family. If you people don't get hold of him I will hire a private detective, locate him and shoot him.

Capt. Wendell and Sergt. Marron, to whom the doctor told his story, sent out Detectives Bernstein and Curran to see if they could locate the coachman.
